All times are approximate.

### Walk.

Nestled in a tree-lined pocket of Deakin, the attractions in both the Deakin, Yarralumla and Curtin shops are well within reach.

Grab the perfect cup of coffee from your favourite barista or dine in bustling cafés and restaurants.

### Cycle.

They say having a healthy body results in a healthy mind.

Designated bike lanes on main roads, coupled with an extensive network of bike paths weaving their way throughout the suburbs, Canberra is home to one of Australia's most cycle-friendly cities.

### Drive.

Prominently located at the axis of South Canberra's major arterial routes — Adelaide Avenue, Yarra Glen and Cotter Road — destinations including Canberra city, NewActon precinct, Kingston, Manuka and Westfield Woden are all within a 10 minute drive.

### Ride.

Deakin is currently well connected and serviced by a number of buses, not to mention the imminent arrival of Transport Canberra's Light Rail.

Linking the City to Woden, deakin.one is conveniently positioned in the centre of the proposed Light Rail Stage 2.
